

# OUTRAGE KITE

## Fixed Attachment Points

### AOA Angle of Attack Front Pigtail Knots

- 3
  - 2
  - 1
- \*Pigtail @ forward tow attachment w/3-knot adjustments.
- Forward attachment gives the kite the most sheeting range, good for gusty conditions.
- Mid attachment gives the kite a consistent feel with adequate sheeting range.
- Aft attachment is a powered-up position good for consistent winds.
